

## **Notice of Intention to carry out a seismic acquisition survey in the Rolleston Area**

**2<sup>nd</sup> to 20<sup>th</sup> September 2024**

Denison will be undertaking seismic acquisition in the Rolleston Area utilising road reserves, Central Highlands Regional Council Property and private property in agreement with individual property owners.

All activities will take place in rural areas and will not impact the township of Rolleston.

A Traffic Management Plan has been developed to ensure that there is minimal traffic disruption as the seismic crew will at times need to cross both local and state-controlled roads to access properties.

Seismic acquisition will be undertaken using Vibroseis, Enviro Units which have very low impact on both landowners' property and the environment.
